Dear Mr [REDACTED],

Thank you for your questions and please find our answers, as follows:

1. From the total commemorative coin mintage of Croatian 2-euro coins, we have supplied to the banks ~24.000 pcs to 40.000 pcs depending on the commemorative issue.
2. You are right, commemorative coins in the Croatian Cities series are following the themes of the Croatian Kuna banknotes for 5 Kuna and 10 Kuna banknotes and the same is the plan for 20 Kuna banknote but we cannot formally confirm that this will be the case in the following years due to the fact that the Plan of issuance is formally decided only for the following year.
3. We can confirm that the HNB has plans to issue standard circulation euro coins from 2026 to circulation.
